You Made it Possible: Generous Support to more than 2,000 Charities!

Thank you very much! Federal, military and postal employees in our Region stepped up in their tradition of caring and giving. Together, we contributed \$2,445,527 in the fall 2014 Gateway Combined Federal Campaign (CFC).

Pledges from 7,028 donors, plus more participants in fundraising events, and energy from more than 1,000 volunteers helped make that add up.

Everyone can feel great about the fact that these dollars will benefit 2,023 charitable organizations, as designated by the donors. The impact of these donations will help tens of thousands of people and improve communities in many ways – from next door, to each coast, and internationally. The CFC is truly democracy in action when it comes to workplace giving.

One of the wonderful features of the CFC is its efficiency; how it can enable many people to support their favorite causes using a high-quality, low-overhead system. We in the Gateway CFC are proud of the fact that lots of volunteer energy means that the overhead has averaged 7% over the past 10 years. That maximizes the amount going to charities. This Annual Report lists both sides of the equation -- on one side, the top charities (by dollar amount) and how much they were pledged. On the other side, it lists some of the many wonderful volunteers and agencies which made it possible to add up the dollars.

It has been my privilege to serve as Chair of the Gateway CFC Leadership Committee. I am proud of the campaign achievements and honored to have served among so many generous, passionate, dedicated people. Some of those great people are recognized in this report. If you know someone who assisted the campaign, please thank them for giving so generously of their time and talent to help.

On behalf of the Leadership Committee, I applaud you, and thank you for your continuing generosity.

Sincerely,

Ken Ausbrooks, Chair, Gateway CFC Leadership Committee *and*
Director, Defense Enterprise Computing Center (DECC) St. Louis, Defense Information Systems Agency (DISA)
